stomers have not made it impossible, they have registered. They will vote, too, on the first day of October, for candidates for public office who are pledged to amend the law that was aimed to disfranchise them.

All honor to Marcus Daly and the men who joined him in that appeal. They have performed a great public service in demanding that every man, rich or poor, who dares to live in this broad domain of ours, shall have the right to vote, if he is entitled to it! No more sacred cause could entail the efforts of any party than that undertaken by the united democracy of Montana—now as ever the people's people! We welcome the issue and we will win it.

COMING from a party that, according to the admission of its own leaders, stole the presidency in 1876; that bought it in 1880, according to an open confession of Vice President Arthur in his "soap" speech at the Dorr day dinner that reported it in 1888 through the "Blocks of Five" methods of Dudley and his confederates—the talk of republican campaign orators in Montana this year about pure elections and ballot reform is about the largest exhibition of gall and hypocrisy we have ever seen.

The Hon. J. R. Rickards, republican candidate for lieutenant-governor, is a gentleman and a man of honor. He cannot afford to indulge such silly misstatements as that made in his speech here on Thursday night, that the recent strike of the London dock laborers shows what free trade does for the laboring man. Some of these fine nights, at one of his meetings, the price of a barrel of wheat will pop up and ask him why it is that under a protective tariff the Illinois coal miners are starving, and Andrew Carnegie cuts down wages in his iron works, and the New England woolen manufacturers are going into bankruptcy.

Between the wildly contradictory figures of Sanders and Carter, people who are trying to keep posted on the wood question are having a dizzy time. If we are satisfied, however, that if it hadn't been for Carter there never would have been any sheep. Confidentially, he admits it. He also discovered our silver mines, most of which have been subsequently apologized for, in Mr. Harrison's organ, that we do not believe it is wilfully lying in making such a charge now. It is simply a stupid newspaper—more dead than to anybody else.

Among other things that Mr. Russell B. Harrison's organ doesn't know, is the difference between the registration law and the Australian or secret ballot act. If an intelligent newspaper deliberately charged that the Hon. Marcus Daly and other members of the democratic state convention had signed an address to the voters of Montana denouncing the Australian law, we should simply say that newspaper lied; but we have seen so many ridiculous blunders and misstatements, most of which have been subsequently apologized for, in Mr. Harrison's organ, that we do not believe it is wilfully lying in making such a charge now. It is simply a stupid newspaper—more dead than to anybody else.

The republican party of this territory, though always in the minority, have ever sought to obtain a majority by the use of a full and free election. In this nature were the first laws proposed by republican leaders in every age. It is evident they do not know that the democratic convention never uttered one objection to the Australian ballot law. He evidently does not know that the convention never demanded a repeal of the entire registration act. Had he ever read the democratic platform he would have found that it did contain this declaration:

New York Sun: "Now and then we hear a sigh for the 'good old times.' But such murmurs are silly and ungrateful. Relatively speaking, there never have been any good old times. As well might a man who had just struggled free from bonds weep because he was no longer fettered as that the world should grieve for the ignorance, the vice and the barbarism from which, after Titanic struggles, it is now emerging.

Mrs. Mona Caird, who has been somewhat out of health, is now in the Austrian Tyrol, undergoing the "sun cure." This treatment is a mixture of the grape cure and of sunlight. It is apparently especially successful in cases of nervous exhaustion. The patients lie on the sand bathing in the nortside sunshine. Grapes form an important feature of the vegetation diet, to which they must submit during the course.

Mississippi Journal: Carl Schurz, Mayor Grant and even ex-President Cleveland are spoken of as successors to S. C. C. It would be a singular development of the political situation if Mr. Cleveland should take a seat in either house of congress, but he has the warrent of president and a few years there would give him experience that would not be to his disadvantage in 1892. If he should be able to fill the place of leader of his party in other house for the next few years he would be a stronger candidate for the nomination in 1892 than he would otherwise be. Why not Grover Cleveland for congress.

From the expedition sent out from Princeton college for the purpose of making a collection of fossils in the John Day country in Eastern Oregon, the New York World has reported that contains points of interest. The party was encamped for a considerable time on the south fork of John Day river, just at the point where the stream emerges from the mountains. It reports the find of fossils quite large. A great number of the remains of animals, of many different genera, have been collected. A specimen is kept in its casing or shell of rock, which will be carefully removed when the fossils arrive at Princeton. The fossils are mostly found along the beds of streams in clayey deposits, where the water has washed the banks away, exposing the strata. The clay, once soft, has become indurated through time and pressure, to the hardness of rock. It is seldom a region so thick in fossils is found.

Over in Washington territory the republicans are running a candidate for justice of the supreme court against whom four indictments have just been found for embezzlement. It is now in order for the republican press of Washington to yell "mud, mud" at the newspapers that invite voters to examine the records of the candidates.

Voters should do well to read Thomas C. Power's political speeches. Better still, go and hear them. If there was ever a clearer case of misfit between the man and the office, we would like to know where it was.

The republicans of Helena have hired a glue club to sing. "What Shall the Tariff Be?" at their meetings. This is said to be undertaken to answer the question themselves.

We think slippery Tom is beaten. His treachery toward the other republican candidates is reacting on himself. Major Maginnis is coming down the home stretch a sure winner.

Don't forget at the end of your long Australian ballot to make an X in favor of the constitution. If the constitution fails, your votes for candidates will have been in vain.

They think they have him corralled, but they are too late!

A FATHER of more impartial representation of the people could not have been chosen than that which the democratic candidate, of Jefferson county, selected for naming their county for county commissioner—J. J. McCay, John Murray and S. F. Tuttle. Mr. McCay, of Boulder, is a business man of high character. Mr. Murray, of Bedford, is a man who has spent twenty-five years as a miner and will see that the interests of that industry in the county are properly cared for, while Mr. Tuttle, of Fish Creek, will represent the ranch and stock industry. The electors of Jefferson county will find these men safe custodians of their interests.

CROSS-CUTS. Eugene Semple, democratic candidate for governor of Washington, is 49 years old. He was born in Jefferson county, Montana, and his father was minister in New Granada. Register, and do so at once, and thus register the party that elected such a law. Day is dangerous. In order to vote you must register on or before September 1st. Let the naturalized citizens of this territory who have been voting for years, but up to this point they have not seen for ten years, and do to the place of registration and check the names of the party that puts you to this great inconvenience and practically disfranchises you by the absurd provision which requires you to produce your papers, and in some instances to travel 100 miles to register, before you can exercise the right of free men.

It was a stirring appeal and it had its perfect work. Democrats everywhere rushed up to the task before them and wherever republican county commis-

An Alternative Medicine, don't forget that everything depends on the kind of medicine. Ask for Ayer's Sarsaparilla and take no other. For over forty years this preparation has had the endorsement of leading physicians and druggists, and it has achieved a success unparalleled in the history of proprietary medicines.

For a rash, from which I had suffered some months, my father, an M. D., recommended a cure. I am still taking the medicine, as I find it to be the best for the rash, blood-purifier. —J. E. Coker, Duluth, Minn.

"I have always recommended Ayer's Sarsaparilla as superior to all other preparations for purifying the blood." —G. B. Knyekandal, M. D., Pomeroy, W. T.
